

Metabo MAX Repair Program

Keeping your Metabo running like new is now as simple as 1, 2, 3...

By streamlining the time consuming repair process, The ***Metabo Max Repair Program*** now makes it easier than ever to keep your Metabo running like new. For a repair, simply...

1. Review the list of published maximum repair costs for each of our tools on the reverse of this sheet
2. Send your tool to one of the U.S. Factory Service Centers listed below
3. Receive your tool repaired by Metabo Factory Service technicians

We guarantee that your repair will not exceed our published price. In fact, if the actual cost of the repair is less than our published price, you will only be charged the actual cost.

The ***MMR Program*** includes:

- Teardown inspection
- Cleaning and lubrication
- Replacement of any worn and/or damaged parts with genuine Metabo replacement parts
- Full performance and safety tests
