

DriveKore offers Firestop Instructional Training (FIT) at your location for groups of 5 or more. Smaller trainings are held at DriveKore.

The basic competency course is a four-hour, in-service training and includes an exam. Certificates are issued for those who pass and expire every two years. This course is excellent for designers, installers, code compliance officers, and anyone seeking a basic understanding of firestopping.

Please contact your salesman or our counter staff to learn more.
