**4" Induction Clamp**

**\$457.20**

The RIDGID Inductive clamp allows users to apply a signal to a cable or pipe when connecting directly to the target conductor is not possible. The clamp couples the transmitting signal onto the conductor which then allows users to locate using a compatible receiver, such as the NaviTrack™ or NaviTrack Scout™. Two built in LED's inform the user the clamp is functioning properly. An integrated adapter allows users to attach a hotstick for out of reach lines. Compatible with both the NaviTrack 10 Watt Transmitter & the NaviTrack Brick Transmitter.
