SeeSnake Video Inspection Systems & Accessories

- RI-20973 **4" Induction Clamp** **\$461**
The RIDGID Inductive clamp allows users to apply a signal to a cable or pipe when connecting directly to the target conductor is not possible. The clamp couples the transmitting signal onto the conductor which then allows users to locate using a compatible receiver, such as the NaviTrack™ or NaviTrack Scout™. Two built in LED's inform the user the clamp is functioning properly. An integrated adapter allows users to attach a hotstick for out of reach lines. Compatible with both the NaviTrack 10 Watt Transmitter & the NaviTrack Brick Transmitter.
- RI-22163 **SR-60 Line Locator** **\$2,892**
Can trace any frequency from 10 Hz to 490,000 Hz. Can trace energized lines and sondes (active beacons) simultaneously. Target Line – Guides the operator down the line and shows changes in direction. Left-Right Guidance Arrows – Points the operator to the target utility. Proximity Signal and Signal Strength – Helps the operator center the locator closer to the target for more confident locates.
- RI-21893 **SR-20 Line Locator** **\$2,295**
Target Line – Guides the operator down the line and shows changes in direction. Left-Right Guidance Arrows – Point the operator to the target utility. Proximity Signal and Signal Strength – Helps the operator center the locator closer to the target for more confident locates. Continual Depth – Increases productivity by showing depth changes in real time. Current Strength – Identifies current on target line for faster diagnosis of complex locates.
- RI-21903 **ST-510 10-Watt Transmitter** **\$1,667**
Direct Connect using attached Clips
Induction from the optional Inductive Signal Clamp
Induction from the Transmitter Coils

DriveKore is the only Authorized SeeSnake Repair Center in the Central PA Region. We also offer on-site SeeSnake demonstrations and training.
