PREDICTIVE FORCE MONITORING PFM™

PFM™ is the industry's first adaptive pressure control system, comprised of a seal-free high speed hydraulic pump, fine-tuned pressure sensor and POWERSTATE™ Brushless Motor all orchestrated by REDLINK PLUS™ Intelligence. PFM™ measures pressure and modifies all performance levels of the system, pushing the hydraulics extremely fast through the beginning of the cycle and landing them softly at the right pressure, while protecting internal components, during the completion of the crimp. The result is the single fastest, most precise, and most durable crimping system on the market.

PROTECTION

Best Protection Against the Elements

- Weather protected electronics keep dirt, dust and moisture out
- Hydraulic system optimized for consistent performance:
-18°C / 0°F to 55°C / 122°F

EASIEST ALIGNMENT

In order to improve control while wearing PPE in a bucket or trench, Milwaukee® repositioned the traditional 6T crimper grip closer to the center of the tool, fully balancing the crimper and dramatically improving users ability to line up markings on connector at the jaws.

6T UTILITY CUTTER THE FASTEST WAY TO CUT

Super SAWZALL® Reciprocating Saw

6538-21 15.0 amp motor delivers 0-2,800 SPM. Features Variable Speed Trigger and Dial Speed Control for maximum speed control. Quik-Lok™ Blade Clamp System provides fast and easy blade changes. 1-1/4" stroke length.

\$289

Deep Cut Variable Speed Band Saw Kit

6232-21 Delivers 2X more durability, best-in-class power at 11 amps, revolutionary cut visibility and the industry's largest cut capacity at 5" by 5". Includes carrying case.

\$119

SAWZALL® Reciprocating Saw

6509-31 12.0 amp motor delivers 0-3,000 SPM. Features a 3/4" stroke length and gear protecting clutch. Quik-Lok™ Blade Clamp System provides fast and easy blade changes.

\$162

1/2" VSR Impact Wrench with Detent Pin Socket Retention

9072-20 Powerful 7.0 amp motor produces 300 ft-lbs of torque and 1,800 RPM. Features a detent pin to securely retain sockets or adapters, and a variable-speed reversing switch for added control in drilling applications or driving lag-bolts.
