Ordinary teeth deliver either speed **or** durability. **Nail Guard™** solves this trade-off with an aggressive 5 TPI pattern for faster cuts and a unique design that protects against tooth fracture.

And **Fang Tip™** bites into the wood on first contact.

The TORCH blade is designed for the toughest Fire and Rescue work, demolition, plumbing, remodeling or general metal cutting applications.

The TORCH blades will cut pipe, conduit, angle iron, steel and other hard materials.

TORCH blades are 1 inch tall for straight, fast cutting, and 0.042 inch thick for longer life with the ability to flex in tight cutting situations.
